Agenda

- Registration and explanation of registration emails
- Update on a few tweaks
- Status of PIA data
- Mini-releases in Year 2
- Priorities for Year 2
- Check-in on how the site is working for everyone
- Topics for Upcoming Techinars
 - Survey effort and further development of Sampling Events pages in STReaMS
 - Development of 4th role with limited privileges for public access

Registration in STReaMS

- If your email is part of the system
 - Just request a new password
- In all other cases
 - Must choose an organization
 - Org data admins get an email
 - If the org has no data admins, database managers get an email
- Initial role has read-only access

Update on a few tweaks

- PIA Locations filter added to encounter list
- Encounter list added to PIA Location page
- Got rid of default filter on individual list
- Two new organization types
 - Tribe
 - Non-profit

PIA Data

Data are in for:

- Colorado River Price-Stubb
- Green River Canal (Flume and Below siphon)
- White River – Bonanza Bridge

In the Pipeline

- Price River (Woodside and Confluence)
- McElmo Creek

Check dates in PIA Locations for status of data

Mini-releases in Year 2

- Originally proposed: quarterly releases
- Monthly might be more realistic
 - More timely delivery of features
 - Increased responsiveness to feedback
 - Easier to test/less likely to be broken

Priorities in Year 2

- PIT distributions
- Batch upload capabilities
 - Hatchery files
 - Passive Interrogation Arrays
 - Sampling events
- Fourth, “public” role
- QA/QC features
 - Combining records
 - Find duplicates
 - Revision tracking
- More online help
 - Database dictionary
- Online query builder for customizing data downloads

Feedback about the site so far

- Anyone?

Topics for upcoming techinars

- Survey effort and further development of Sampling Events pages in STReaMS
- Development of 4th role with limited privileges for public access

Thanks!
