# STReaMS: Species Tagging, Research & Monitoring System

Techinar Presentation
12/17/2015

Kirstin A. Holfelder, Amy Greenwell
Colorado Natural Heritage Program
Warner College of Natural Resources
Colorado State University
www.cnhp.colostate.edu

Agenda

- Any feedback on STReaMS year 1?
- Update on new features/fixes/data
- Upcoming development schedule
- When to "turn off" registration – before or after the researchers meeting?
- Discussion of capture effort
- STReaMS hosting in the future

Feedback

- Any feedback on STReaMS year 1?

New Features/Fixes/Data

- Can now have inactive users
- Source files now linked to relevant records
  - (EncounterID = 203287)
- Duplicate Rivers no longer allowed
- Minor query fixes

Development Schedule

- PIT distributions – January, 2016
- Batch upload capabilities – 2016 Q1 (Kirstin)
  - Hatchery files
  - Passive Interrogation Arrays
  - Sampling events
- More online help – 2016 Q1 (David – the other dev.)
  - Database dictionary
- Fourth, "public" role – 2016 Q2
- QA/QC features – 2016 Q2
  - Combining records
  - Find duplicates
  - Revision tracking
- Online query builder for customizing data downloads – 2016 Q3

Registration

- Turn it "off" before or after the researchers meeting?

Capture Effort

- ?

STReaMS Hosting (from proposal)

- CNHP will continue to:
  - Maintain the server, server security and database backups
  - Maintenance and website enhancements
  - Update online help, user manual and system documentation
  - Participate in the Recovery Program's meetings and workshops
  - Train Recovery Program participants on new features and enhancements
  - Prepare quarterly, semi-annual and annual reports
  - Perform project management and CSU compliance

Thanks!

- Questions? Other things to discuss?
